

CLAIMS

1. A toy vehicle comprising sound-producing means arranged to replay recorded sounds and means for activating the sound-producing means
5 depending on the motion of the vehicle.

2. A toy vehicle according to claim 1, wherein a first sound is emitted if the vehicle is moved forwards and a second sound is emitted if the vehicle is moved backwards.

10

3. A toy vehicle according to claim 2, wherein the sounds are arranged to be emitted for as long as the vehicle is in motion.

4. A toy vehicle according to claim 2 or 3, wherein a further sound is
15 arranged to be replayed for a set period of time commencing when the vehicle starts moving.

5. A toy vehicle according to claim 2, 3 or 4, wherein the sound-producing means is arranged to emit one of a plurality of sets of recorded
20 sounds, selectable by means of a further switch.

6. A toy vehicle according to any preceding claim, wherein the sound-producing means comprises means for digitally recording sounds from an external source.

25

7. A toy vehicle according to any preceding claim, having an on/off switch.
